

January 17, 2017

Attention – as of today, Tuesday, January 17, 2017, Pyramid Lake is still closed to fishing and other recreational activities. Permits are **not** being sold to allow fishing at this time. Sutcliffe is still without most utilities, and State Route 446 is still closed, due to several washouts from Nixon to Sutcliffe. The docks at Pelican Point have been severely damaged, and will require immediate repairs.

The safety of our community and our visitors are very important to us.

The Tribe will notify the public when the lake will re-open. Please follow our Facebook page(s) for more information. We will let the public know the latest in closure and weather conditions as it comes.

Follow us on Twitter @plpt

Information will also be posted on our main page of our website, www.pyramidlake.us

All websites will be updated with current information regarding the closures and weather conditions.

Thank you.
